

ARKANSAS
GOVERNOR'S
SCHOOL 2001

YEARBOOK & DIRECTORY

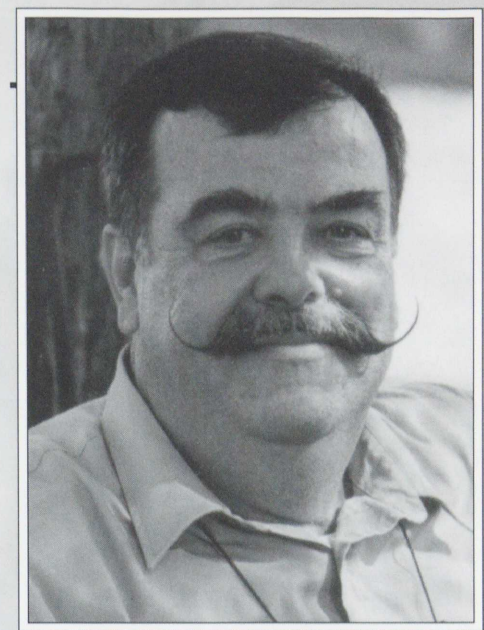

MIND POWER:
ARKANSAS' FUTURE

JON ARMS

AGS DIRECTOR

Arkansas provides the best support in the nation for programs of this type dedicated to gifted and talented students. For the support of the Arkansas Governor's School, all participants and their parents should be proud of the tradition of taxpayer funds that our state has provided for this select group of rising seniors. I hope that this 22nd annual Arkansas Governor's School yearbook and directory will provide each participant who completed the program with great memories of a very positive summer-of-2001 experience, as well as with a list of other participants, faculty, and staff for future use.

AGS is one of only approximately thirty-one Governor's-School programs in the nation, and its curriculum and goals are based on the original 1963 North Carolina Governor's School model. Over the past two decades, AGS has developed a reputation as the leading program in this elite group. Please remember to thank the teachers, staff, the Governor, the Arkansas Department of Education, Hendrix College, the Governor, state legislators, and the state's taxpayers for making this program possible. AGS is designed to give 400 select high school juniors the most enriching and comprehensive liberal-arts experience that can be packed into six weeks. My impression from talking to students, faculty, and staff is that all of our efforts—because **ALL** of us play a role in the success of an educational enterprise—contributed to an outstanding program.

If AGS was personally successful, you should have a greater sense of control of your own destiny; you should have been inspired to think more deeply about controversial issues and to take responsibility for your ideas and decisions; and you should have a better understanding of your potential for leadership, creativity, and service to the community. Virtually every participant in AGS 2001 will have come to know a great group of peers who shared in the intellectual and creative challenges of this program. Many of these peers will be life-long friends who share in the desire to lead the Socratic ideal of "the life well-lived." As the Director of the program, I want to thank you for your contributions to the success of the 2001 Arkansas Governor's School. I hope that this summer program was as exciting for you as it was for those of us on the faculty and staff. I also hope that your future is bright and full of even greater intellectually challenging experiences.

Best wishes,
Jon Arms, Director

AREA I

ACADEMIA & THE ARTS

Area I embraces instruction in the performing arts of choral music, drama, instrumental music and visual arts, and course work in the academic disciplines of English/Language arts, natural science, mathematics, and social science.

Emphasis in Area I is placed on participatory learning experiences which prepare students to enter and understand the critical systems that undergird the various fields of study. To this end, students examine new, challenging, and often controversial theories, techniques, and works—all designed to challenge them to develop a critical stance based on careful scrutiny of ideas and developments within their areas of interest.

Alice Hines is Coordinator of Academic Disciplines and Jon Arms is the Coordinator of Performing Arts.

AREA II

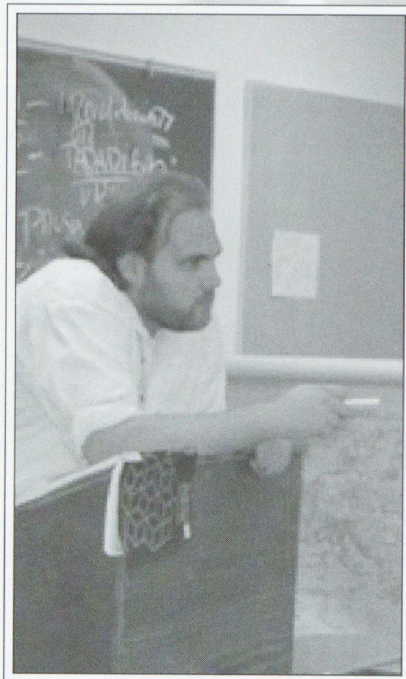

GENERAL CONCEPTUAL DEVELOPMENT

The Area II curriculum is designed to enhance conceptual development. Students are encouraged to learn more about how knowledge is acquired (epistemology) and to understand the various ways of knowing in different disciplines. In striving to increase their ability to analyze diverse perspectives on current normative issues, students gain a new appreciation for their implications. Classroom discussion then leads students to progress to deeper levels of intellectual reflection, which enhances their ability to become better thinkers.

Mark Elrod is the Area II coordinator.

(L to R) Row 1: Chuck West, Mark Elrod, Rita Tekippe, Chris Campolo. Row 2: John Walchak, Phillip Spivey, Steve Smith, Rachel Wagner

AREA III

PERSONAL AND SOCIAL DEVELOPMENT

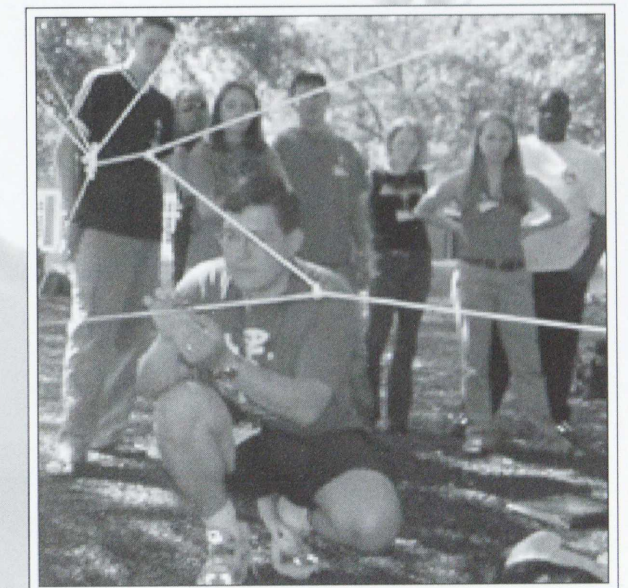

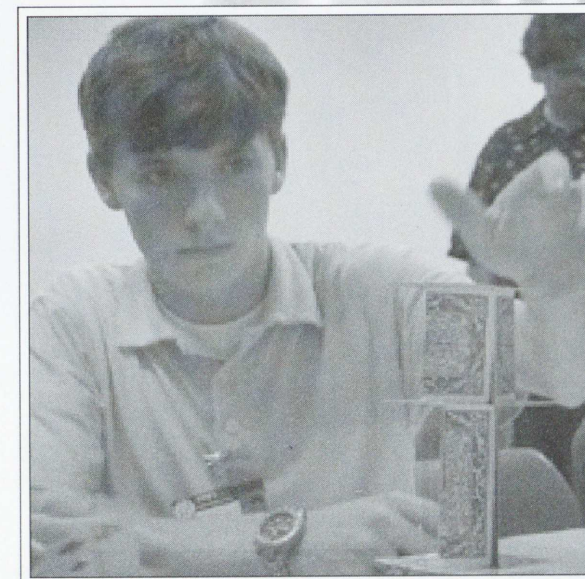

Area III attempts to create an environment in which students inquire into the nature of their individual abilities and the responsibility they have to their respective communities.

Realizing that "community" is now both local and global, Area III fosters the development of both the personal and social awareness the students will need as their knowledge expands and they confront diverse world views. Using the framework of social theory, sociology, and psychology and ethics, Area III provides a forum for students to explore issues that arise in a diverse community. By stressing the importance of personal self-awareness and individual accountability along with the values of character, compassion, and social responsibility, Area III encourages a deeper commitment and understanding of what it takes to create and maintain a just and compassionate community, both local and global.

Phillip Melton is the Area III coordinator.
